The Making Of The British Landscape by **NICHOLAS CRANE**

The history of 12,000 years of the British landscape, from the Ice Age to the twenty-first century, by prizewinning author Nicholas Crane, co-presenter of COAST

Nicholas Crane's *The Making of the British Landscape* brilliantly describes the evolution of Britain's countryside and cities. It is part journey, part history, and it concludes with awkward questions about the future of Britain's landscapes.
