

STATEMENT OF CARBON NEUTRALITY

Subject of Declaration

The subject of this statement includes all activities under The Hall School Charitable Trust (The Hall School) operational control, covered under Scopes 1 and 2 of The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard (Revised Edition) as detailed within this report.

This statement is compatible with international standards ISO 14064 and PAS 2060.

Carbon Neutrality

Carbon neutrality refers to achieving net zero carbon dioxide emissions by balancing emissions with carbon removals (i.e., carbon offsetting). This is important as it allows global balancing of emissions while emissions reduction strategies are being implemented.

Why is Carbon Neutrality Important?

To avoid the worst effects of climate change, we need to take responsibility for our impact and act now to limit global temperature increases to 1.5 degrees Celsius, or well below 2 degrees Celsius above pre-industrial levels.

As set out in the Paris Agreement, offsetting plays an important role for rapidly deploying environmental solutions where it is economically most viable. This helps to bridge the gap between now and the time our societies will be able to phase out Green House Gas (GHG) emitting technologies.

In that respect, the Paris Agreement aims to accelerate the transformative change needed to reach carbon neutrality, ensuring that countries around the world will be increasing their ambition and action over the second half of the twenty-first century, while also supporting the achievement of Sustainable Development Goals.

Organisation details

The Hall School

69 Belsize Park, London, NW3 4EH

Period during which the entity is demonstrating that carbon neutrality of the subject has been achieved:

01/09/2021 to 31/08/2022

Assessment validated by:

One Carbon World Ltd.

Scope 1 and 2 GHG emissions during the measurement period:

96.55 tons CO_{2e}

Activities/Emissions included in footprint:

Activity Type	Total Tons CO _{2e}
CO _{2e} emissions from UK electricity	0.00
CO _{2e} emissions from Fuels	96.55
Total Emissions tCO_{2e}	96.55
Neutralised by Carbon Credits From Projects tCO_{2e}	97.00
Total Net Emissions tCO_{2e}	0.00
Scope 1 and 2 Result	Carbon Neutral

Method Used to Achieve Carbon Neutrality:

100 tCO_{2e} off-set through retirement of 100 Certified Emissions Reductions from the UN Clean Development Mechanism.

The carbon neutrality of the activities under the operational control of The Hall School, listed in this Statement, has been achieved in accordance with the One Carbon World Carbon Neutral International Standard, for the period: 01/09/2021 to 31/08/2022.

Signed:

A handwritten signature in black ink that reads "A Bowen".
